		SYNERGY
Ref. No. 0026 / Date: 11/06/2026		Rev. 1 Page 1 of 1

REFERENCE

"Synergy Construct" Ltd. hereby issues this reference to "VALMEX" Ltd. in connection with the execution of construction and installation works for the project: "Construction and installation works for the implementation of the project 'NEW AIR SEPARATION AND GAS PRODUCTION PLANT (OXYGEN, ARGON AND NITROGEN)', carried out on land plot with identifier 31044.27.32 located within the territory of the town of Zlatitsa, Zlatitsa Municipality, and land plot with identifier 56407.30.25 located within the territory of the town of Pirdop, Pirdop Municipality, Sofia Region".

The executed construction and installation works, assigned under a Contract dated 05.11.2025, amount to EUR 405,225.91 / BGN 792,552.99 excluding VAT.

The project was executed within the period from 11.11.2025 to 10.03.2026

The main activities performed on the project included:

- Execution of 144 foundation piles with a diameter of Ø620 mm and lengths ranging from 12.00 m to 18.00 m, including drilling with casing, installation of reinforcement cages, and concrete placement
- 3 pile load tests carried out by means of static compression load testing

The construction and installation works were executed to a high standard of quality, while strictly complying with the requirements applicable to work within the plant area, including restricted access procedures and stringent occupational health and safety regulations.

The company's capacity, technical capabilities, accumulated experience, and the high qualification of its engineering, technical, and operational personnel give us every reason to recommend "VALMEX" Ltd. as a reliable, responsible, and trustworthy partner for projects involving significant responsibilities and demanding execution requirements.

This reference is issued to serve "VALMEX" Ltd. in participation procedures for public procurement contracts, as well as in tenders and procedures announced by private investors.
